

Attention: Anybody looking to make a few extra dollars each month... working from home giving your opinion to others...

Make easy money from “paid surveys” just for telling people what you think...

...all while you sit back and relax at home in your P.J.'s...

Yeah sure – what’s the catch?

First the promise:

- ✓ Get paid to take online surveys and make from \$5 to \$75 each, or more...
- ✓ **Get paid to participate in focus groups and make up to \$150 an hour...**
- ✓ Get paid to take phone surveys and you can earn as much as \$120 an hour...
- ✓ **Get paid to try new products (and keep the free products too)...**

And...

- ✓ Get paid to preview new movie trailers for \$4 to \$25 an hour...

Now the catch:

- ✓ **You will have to fill out surveys** – and yes, tell people what you think...
- ✓ You will have to **register with a lot survey companies** unless you know how to find and figure out which are the most reputable...
- ✓ You will **waste a lot of time** unless you know how to match yourself to the survey companies who are looking for somebody with *your personal profile*...

And finally, there will be **no *GUARANTEE* you’ll score a lot of offers to complete surveys for cash payment...** at least not with anybody else in the survey business that we know of.

To discover the reality about PAID SURVEYS with no sugarcoating – and how you can make a nice additional income from them – **please read on:**

From the Desk of Richard Saulsbury, SurveyScout.com

Wednesday, 9:25am

Dear Friend,

Lack of money got you down... not able to comfortably cover the monthly bills... never have enough left over to treat yourself to a nice evening out, a new dress, a weekend away, or to be able to buy some new "toys" to play with?

Believe me, you are not alone.

I was in exactly the same boat a few years ago when I decided *I just had to* find a way out. It's not that I wanted a million dollars... just an easy way to earn a few extra dollars – in a way that was both simple and fast...

What I uncovered was **PAID SURVEYS**... I was more than excited. As well as earning some additional dollars, you can also win:

- Gift Certificates
- Prizes
- Free Samples
- Merchandise
- And so much more...

However, I was also quick to learn there are many challenges to paid surveys. I spent countless hours of frustration discovering that in order to make some good money with **paid surveys** you have to:

- Register with *as many as 300 or more survey companies*... and you have to know which are reputable and which are just scamming you...
- You have to know how to match your own personal profile with survey companies that are looking for somebody *just like you* for their paid surveys...
- And after all is said and done, there is still **no guarantee** you'll get enough survey offers to earn the money you would like to.

This was my motivation for starting **SurveyScout.com**. Now, all in the one place you can find – at last count – **496 research and survey companies who will pay you for your opinions**. And all have been thoroughly checked out and verified as highly reputable.

Earn a nice additional income: Fast - Simple - Guaranteed...

In addition, so you don't have to go through the same countless days and months of frustration as I did, you'll also receive:

- An *easy-to-follow* **introductory guide** on how to get started fast...
- **Software** that lets you fill in forms and surveys up to 3 times faster – which means you can make *more money in less time*...

And...

- **A \$25 Instant Survey Reward Offer...**

Yes, we'll even pay you to get started – no joke... We want to help you get started in surveys, so all you have to do is take a short 7-question survey *and instantly receive a \$25 voucher good at over 5,000 restaurants nationwide*...

But most importantly:

- You will have at your disposal a **dedicated personalized help line**... where our representatives will show you the fastest and easiest way to make money fast with surveys.

Let's face it, there are many paid survey companies and they all seem to offer the same stuff. But who will take the time to show you how to match your profile with the survey offerings that most suit your profile, thus maximizing the money you make?

Who will let you know what new surveys are coming out soon so you can get in early? Who will advise you which surveys are for cash, which are for prizes, and so on?

SurveyScout.com has 5 dedicated representatives available by phone or email ready to do all that is necessary to ensure you get the matched with the right survey offers and make the money you'd like to.

We even have one dedicated person whose role it is to find and test *absolutely every survey offer available on the market*. Every survey offer in our comprehensive database has been personally tested and verified.

And furthermore...

We Guarantee Your Result...

We live and breath **paid surveys**... you can be totally confident you have found **the most trusted source** of paid survey companies... and to inspire that confidence even further, *we guarantee your result*...

We know you want to make some extra money... and that is our goal too. No other company is prepared to put themselves on the line as we do.

Our guarantee to you:

You must make at least 10 times your one-time small SurveyScout.com fee back within 60 days or you'll get every last penny refunded... no questions asked.

But I'd much rather you discover how easy it is to make a nice tidy part-time income... and enjoy making as much additional money as you need.

That is the very reason I put together a dedicated team of survey advisors who you can call or email at anytime... and they will *personally review where you are at and ensure you are doing what is needed to make 10 times your fee... and much more...*

Why paid surveys are a great way to make a nice additional income working from home – at your own pace – on your own hours...

Here is my confession that I have to make: I've been quietly making a nice living from home, working mostly online, for the past few years. Until recently, only my closest friends and family knew about what I do. Would you believe a guy at the gym actually thought I won the lottery?

I don't drive a Ferrari or wear \$5,000 suits but I'll never have to argue with my wife about money again, that's for sure. **And it's all possible thanks PAID SURVEYS...**

...I've been making money taking online surveys, participating in focus groups, taking phone surveys, trying new products and even previewing new movie trailers...

It doesn't matter where you live, or who you are - you can do it too. I've shown thousands of people all over the world, in over 50 different countries, how to get paid for their opinions.

But let's get one thing straight right off the bat. I'm not going to lie to you and say you'll make \$150 an hour all day every day, or make \$10,000+ every month - because you won't.

... but when you can make up to \$150 an hour **you don't NEED to work that much...**

Whether you're looking to make a few extra bucks a month to cover a new car payment, pay off your credit card debts, or you're looking for a full-time income you can earn from home, this is one of the easiest and most fun ways to make money I've ever seen. And I guarantee you'll agree with me.

Since launching **SurveyScout.com** I've seen stay at home moms, college students, and others just looking for a way to make a little extra spending money enjoy the rewards **online paid surveys** offer.

“How much can I make from online surveys?”

At last count we had **496 partner survey and research companies** wanting your opinion and *ready to pay for it...* Each and every one of them we have researched, checked and verified to be a highly reputable company. Only the ones that “made the cut” are included in our database.

Surveys can be about new product releases... phone surveys regarding where you what restaurants you eat at and what movies you like to what... or small focal groups either by phone or sometimes in person to discover your thoughts on a new breakfast cereal.

Many short online surveys pay \$10 each... Such as this following example:

Sample Survey #1

(Do not fill this out!)

Survey Topic: Personal Shopping

Number of Questions: 20

Payment for Completing Survey: \$10.00

1. What is your Gender?

Male

Female

2. Which of the following ranges includes your age?

18-24

25-31

32-40

41 or Older

3. Which grocery store do you most frequently shop at?

Kroger

Randall's

Albertsons

Other online surveys pay \$20 each... such as this example:

Sample Survey #2

(Do not fill this out!)

Survey Topic: Personal Shopping
Number of Questions: 20
Payment for Completing Survey: \$20.00

8. How satisfied are you with your "PRODUCT"?

- Very Satisfied
- Somewhat Satisfied
- Somewhat Dissatisfied
- Very Dissatisfied

9. Of the following list of features, please select the top three that would be of interest to you:

- Feature 1
- Feature 2
- Feature 3
- Feature 4
- Feature 5
- Feature 6

10. Of the three features you just listed, please rank them first, second and third in importance to you:

1.
2.
3.

And of course all the way up to **\$75 per survey**, or **\$150 per hour for participating in a focal group**, **\$120 an hour for a phone survey...** and don't forget the free products you often get to keep.

- Let's say you took 2 surveys a day at \$10 each – **you would make \$140 per week, or \$560 per month.**
- If you took 2 of the \$20 surveys each day – **that's \$280 per week or \$1,120 per month.**

And if you do more surveys, or mix in some focus groups and phone surveys, you can do every better...

Does making money from online surveys seem too easy to you, maybe even not believable?

You know, that is exactly how I felt when I first discovered paid online surveys. The truth is... at first it wasn't easy at all.

Many companies did not pay as promised... I filled in a lot of survey company registration forms and never got offers to do paid surveys. Other companies only wanted my information so they could sell me their products. It was a rough experience.

I put together **SurveyScout.com** so that you don't have to go through that... Actually, it all started with just trying to keep track for myself of what worked, what didn't... who paid and who didn't. But now it's an invaluable short-cut for anyone to make money with paid surveys – *fast, easy, and guaranteed*...

In my travels I came into contact with **Deborah Casey**... one of the most successful people I know with online surveys, considered a true expert who has been at it since the 1970's when surveys were all done through the mail or at a corporate office.

Let me share with you her experience, and those from many of our happy customers:

"I easily earn \$500 per month working 2-4 hours per week..." – Deborah Casey

"How much anyone can earn depends upon their motivation, commitment and time available. For me, I easily earn \$500 per month working with paid surveys from 2-4 hours per week.

"Working with surveys over 25 hours per week I've consistently earned a minimum \$2,500 per month - with my highest paying month about \$4,700.

"Anyone who is actively registered with at least 300 companies should have no trouble earning an extra \$300-500 per month working at it part-time.

"A full-time effort should easily bring an additional \$2,500 per month, with that figure increasing the longer someone sticks with it.

"As for SurveyScout.com, it is a real gem. The Intro section in the members' area is the best I've seen ... it is updated all the time, they offer incredible member support and useful tools ... They are #1 - Top of the list!"

Why survey companies want to pay you...

Did you know that just in the United States alone, companies spend **over \$250 billion dollars a year** trying to convince consumers to buy their products and services. That's a lot of money ...

And while the majority of it is spent on advertising, **\$766 million dollars** is devoted to "market research".

You see, understanding how people think and shop, and why they buy certain products ultimately **helps companies improve their products and services** and make THEM more money.

Knowing this, and that they won't get your help for free, companies are willing to pay you good money -- **up to \$150 an hour** -- for your opinions, because they know they will come out ahead and generate even more profits for themselves.

As a matter of fact, there are currently over **7 million companies** worldwide that actively survey consumers to find the best way to promote their products.

At last count, we have **496 companies** in our database *wanting to pay you* for your opinions. And that is not even counting the bonuses opportunities we have to share with you, such as **"Get Paid to Shop"**, **"Get Paid to Read Email"**, and **"Get Paid to Drive"**... at last count, these represented an *additional 449 companies ready to send you money, prizes and products...*

How paid surveys work – and how to make the most money in the least amount of time...

Most research is done these days using consumer surveys and focus groups - and that's where the real opportunities are. **It's really a simple 3-step process:**

1. **Join the SurveyScout Community**
2. **Participate in Surveys and/or Focus Groups**
3. **Collect your Cash, Free Products, and so on...**

Okay, let's look at the nuts-and-bolts of how this works:

Step 1: Join the SurveyScout Community

Chances are you weren't even aware you can get paid for your opinions, right? That's because the hardest part is finding and sorting through all the research programs out there.

And watch out - some of them are "scams." They don't pay as promised, they bombard you with advertising and their telemarketers start calling you - you get the picture.

It would probably take you months to find, evaluate, and keep track of all the good ones... it certainly did for me. But you won't have to worry about any of that – because now it's all done for you within the **SurveyScout.com database**.

With **SurveyScout.com** you'll have unlimited access to our database of 496 (at last count) of the very best paid survey opportunities, and it's updated pretty much daily.

... Plus you'll receive tips, tricks, and strategies to help you get started as quickly as possible.

In fact, let me give you a few helpful tips right now:

- Be sure to set up a **dedicated email address for surveys**... as you register with more and more companies, you will start to receive a lot of email. That's good... but you want to be organized.
- **Use fast form-filling software** rather than keying your same information in again and again manually. **SurveyScout.com** gives you free software that lets you fill in forms and surveys up to 3 times faster – which means you can make *more money in less time*...
- **Stay focused**... stick with it for a couple months and you will increase your chances of being picked for the higher paying surveys...

How soon you receive your first paying surveys will depend upon the number of companies you register with and your "profile". But in general, you should expect to

start making money with surveys within a few days of starting.

Here are some more tips:

- **Register with as many survey companies as possible...** start with the top 25 (as shown in the **SurveyScout.com** database)... and expand beyond that as quickly as you can. This is easy with our database of verified partner companies and fast-fill software...
- **Be very detailed with your profiles...** the more detail you provide, the more surveys you will become eligible for and asked to complete...
- **Verify whether they pay in cash or prizes...** this information is shown clearly on our survey company listings... or you can ask our dedicated personalized help line...

I have personally registered with about 250 companies and I receive more survey invitations than I can handle. And there are a lot of people who make thousands of dollars per month from surveys and focus groups. It's entirely up to you...

You don't live in the U.S.? Don't worry - you can take advantage of this too. We've shown thousands of people all over the world, in over 50 different countries, how to get paid for their opinions...

Step 2: Participate in Surveys and/or Focus Groups

Because most of the research companies operate online, it's usually just a matter of filling out a simple survey form at their site, or joining a special online "chat" session. Sound easy? It is...

You simply follow the instructions and complete the "job" in your spare time.

There are also phone surveys and other kinds of "offline" opportunities that pay extremely well too - if you're interested in that type of thing - but **it's completely up to you**. You decide which opportunities are good for you, and "work" when and how you want.

You will be asked all sorts of questions on various topics, such as what kind of products you buy, why you choose one product over another, what you think of certain products and how much they cost... and so on.

Surveys are generally between **20 to 50 questions**. Sometimes multiple choice, sometimes there is space to provide an answer. Focus groups are slightly different, in that you along with a number of other people are asked to comment and "chat" about a product.

You can get paid up to \$150 per hour for a focus group.

Step 3: Collect your Cash, Free Products, and so on.

Many companies will pay you cash, but some will give you free products, gift certificates, a chance to win prizes, "points" that can later be redeemed for products or cash, and so on.

Roughly 27% of our partner companies pay in cash only... and 62% pay with "cash and prizes". Which means they sometimes pay in cold hard cash, and other times they reward you with prizes, free products, "points" redeemable for cash or prizes, and so on.

How much money will you make? That will depend upon how many survey companies you register with, how many you qualify with to be included in their survey, and of course, how much time you devote to completing the surveys.

There are NO limits to the number of surveys or focus groups you can participate in.

Some surveys are general and anybody can participate. Others have very specific requirements: For example, they may be open only to women between the ages of 25-45 who live in Canada. Another survey might only be open to single men who use cologne, and so on.

As I mentioned earlier, anyone who say's you'll make \$10,000 a month or \$150 an hour all day long is pulling your leg... But as you saw from **Deborah Casey** and others... if you are willing to get registered with a lot of companies (using the tools we give you)... *it's not hard to make a decent part-time or stay-at-home income...*

How will you get paid? This depends on the specific survey or focus group you join. Some pay instantly via PayPal, others will mail you a check. Just remember, you'll always know the exact details up front before you decide to participate.

You will be paid either by the survey (say \$10, \$20 up to \$75)... or by the hour (for focus group participation – up to \$150 per hour), and in other cases with "cash and prizes".

The benefits of using a PAID survey database such as SurveyScout.com

There are many "free" survey-listing sites. Unfortunately they often become neglected with out-of-date and incomplete listings... and the biggest problem... many of the listings will not be tested and verified as reputable companies you can deal with.

This will result in you spending countless hours of frustration and not making much money. I know... I went through the same thing.

And of course, I think I can confidently say that NONE OF THEM will **GUARANTEE you'll score lots of offers to complete surveys for cash payment...**

Here's what **Deborah Casey** of Portland, Oregon has to say on this question:

"Over the last year many folks have told me they prefer to search for the market research companies on their own, rather than pay the one-time \$30-40 membership fee to an online survey database.

"Invariably they all come back to me after searching for 2-3 months and finding only 50-75 market research companies - and they end up joining a survey database after all - WISHING they'd just done it from the start because they'd be registered with several HUNDRED market research companies and receiving survey invitations by that time if they had.

"Time is money. Why waste time? If earning income the easiest and fastest way possible is the goal - joining a survey database is the only way to go.

"You will easily earn the one-time fee back with your first survey or two. And the better databases are continually updated and always adding new market research companies to their site for more earning power. It's really a no-brainer."

What others in the survey industry say about SurveyScout.com

SurveyScout.com has become the leader in paid surveys. What started out as Richard Saulsbury's personal list of companies to do business with has become one of the most sought after resources on paid surveys.

According to **Alexa Traffic Rankings**, **SurveyScout.com** ranked as the **7,676th top site** on the Internet out of more than **8.7 million web sites**. That's in the top **1/10,000th of 1%**...

Over 10,000 affiliates now represent **SurveyScout.com**.

According to **PaidSurveyScams.org**, SurveyScout...

"...stand out above every other survey site is that they are very up front about the fact you will not make tons and tons of money with no effort.

"It's a refreshing approach considering hype and big promises are the norm in this industry.

"Their database is extremely well organized and they have the top survey companies listed at the top so you can get going in the shortest amount of time possible."

The Complete Shopping Guide for Online Consumers states:

"...this service definitely looks to be one of the better ones around. The price to sign up is \$34.95 (at the time of writing) which is a once off cost.

"Importantly they also offer a 60-day money back guarantee. This means that you can sign up, check out the members site and sign up for a few offers with the market research companies and if you aren't satisfied, simply ask for your money back."

And **Paid-Survey-Reviews.net** rates SurveyScout as a 10 out of 10. And awarded it the **2006 Highest-Rated Paid Survey Website**.
