Rich will show you specifically how to apply his strategies and tactics to **massively boost your trading profits!**

From the Desk of Rich Swannell, Creator of the "Refined Elliott Wave Principle"

Dear Stock Market Trader,

If you have 3 days and 3 nights available in late October... and you would like to discover the *inside secrets* on how Elliottician’s Head Trader, Mark Lindsay, on a daily basis, trades and *pulls money out of the markets at will...*

Then **JOIN US** for the premier “Fast Track to Millions” Elliottician Traders Seminar in Los Angeles on October 27 through 29, 2004.

Mark Lindsay has a breath-taking track record – he called top of the AUD\$ two months in advance at 0.80c, saying this is a blow-off move and a changing trend will

usually follow - and he ***nailed it*** to the pip (0.000 of a cent). And he is going to show you ***LIVE precisely how he does it!***

Here's the deal:

For 3 *intensive* days and 3 *intensive* nights... Mark and I will sit with you in front of a huge screen... and ***trade the markets LIVE... in REAL TIME... picking winning trades and nailing them*** right there and then in front of your very own eyes!

You will get to witness how it ***really works*** with the big boys! No theory, no messing around... Mark will point out one of his proprietary "set-ups"... then go live on the markets... pick a trade to demonstrate his point... and ***nailed it!***

Real trades... real time... real money... REAL PROFITS!

We want *YOU* to experience a real trader at work...

The truth is... there are so many factors at play in trading beyond what you can ever be taught. The hardest thing with trading is you can do all the courses in the world and you still would not have a clue ***messing with real money in the real markets...***

You can get eaten alive out there!

Experience is 90% of what it takes to be a successful trader. And that's *precisely* what we're going to give to you...

The New YOU on October 30th, 2004

On the morning of October 30th, 2004 – after three jam-packed days – early morning to late evening – you will emerge ***knowing*** our technology and ***knowing how to trade with it...***

This is NOT just theory, this is NOT just forecasting – this is ***actually trading*** our technology ***in real time*** on foreign exchange and other markets.

Real trading, real markets, real profits using our refined Elliot Wave technology.

Furthermore... we are going to do this for you ***LIVE...*** in an *INTENSIVE* hands-on, roll-up your sleeves and get to work format.

We will show you entries, exits, show you money management. Show you actual trading systems we use... and work with you so that you walk away with a trading

system for your own use.

Mark and I will cover everything that a trader needs and uses. My goal is to impart to you real trading experience and know-how.

You'll be watching Mark Lindsay trade in real time. You get to track his every move on the big screen. He will first tell you the setup he's going to use... you will have all the details in your Workbook... then you watch him go live onto the market and *trade in real time*...

But get this!

You can “interrupt” him at *anytime* and ask *any question you wish!*

That's the beauty of it... watch a real trader at work... he'll explain what the deal is... and *you can ask him any question you like*...

You have open season on both of us! Challenge Rich Swannell and Mark Lindsay on any issue...

You get to challenge either of us, at anytime on any trading issue that comes to your mind. We will provide you with a complete **Elliottician Traders Seminar Workbook**. A *sure-fire* formula for success... Do what the most successful traders do

The way to drive your trading success to levels you've only previously dreamed of ... is to emulate what other mega-successful traders are doing.

But how do you do that? Successful traders don't advertise themselves as such ... and they certainly *do not* allow others come and watch their every move ... study their every set-up and analysis ... or *grill them on-the-spot* to justify what they are doing!

But that's *precisely* what you get to do with Mark and myself. Mark will trade *LIVE* as he does everyday. And you get to study his every move. Furthermore, he will lay out for you in detail all of his set-ups, his techniques, his strategies and

tactics in your **Elliottician Traders Seminar Workbook**.

Mark will show you how the technique, strategy and tactic works... explain the reasoning behind the set-up... then go out on the markets *LIVE* and demonstrate it for you.

Observing and learning from a master in the game, watching and grilling him on *WHY, WHY, WHY...* will ingrain deep into your subconscious how trading *really works!*

So let me tell you a little bit more about Mark Lindsay, Elliottician's Head Trader:

Why what Mark Lindsay has to say will be the most powerful *profit-generating lessons* in trading you'll ever learn!

Mark Lindsay sees, smells and thinks about trading and how to make money in

the markets 24/7... he even sleeps with the markets running *LIVE* on his laptop next to his bed...

At only 26 years of age... Mark is a trader who is **“on fire”** ...

- He has picked the brains of major Wall Street Wizards (he has forbidden me to drop names in writing... but he has plenty of stories he will share with you)...
- He has walked the floors of some of the most *electrifying trading pits* in the world...
- He has demonstrated publicly a *consistent* and *breath-taking* track record for picking winners...

In fact, during 2003, Elliottician published 200 forecasts, all in our publicly available monthly newsletters (at our web site - <http://www.elliottician.com/newsletter>), and got the direction right in all bar three of them. ***That's a 98.5% rate of accuracy!***

Stocks such as 3M, Eastman Kodak, General Dynamics, Hewlett Packard, Bank of America, Citibank, Disney, Dupont, Campbells Soup and Coca-Cola.

During the **“Fast Track to Millions” Elliottician Traders Seminar** you will be able to get inside the mind of a mega-successful trader... and discover what makes him tick and how you can apply this to *supercharge your trading profits* ...

- He will even allow you to gain access to his most closely guarded secret! His personal **Trading Strategy and Plan**... I really had to twist his arm to reveal this...

In fact, seven years of research have gone into this *devastatingly effective strategy* and plan which has built in over 100 years of experience from the greatest traders in the world...

And Mark will demonstrate use of the “Refined Elliott Wave Principle” in *competition crushing action*... You will discover how *you can execute it* with laser-precision daily in live trading situations...

Recently Mark took a whirlwind tour of the world's hottest trading floors... He will share with you his stories... such as:

- Watching the market makers take the cream off the cake in the S&P pits and the Dow pits...

- Standing in the SYMEX... in the pits watching the market makers... witnessing first hand the “games” they play... how they support the market... and *precisely* how they bury the market...

This is something that can never be taught. Something that you can't learn – you cannot read about it in a book... To understand... to develop one's own sixth sense... you must smell it and touch it – you have to feel it...

That is *precisely* the goal of the “**Fast Track to Millions**” **Elliottician Traders Seminar**... To allow *YOU* to gain that same *electrifying* and *forever highly profitable* first hand experience through osmosis from Mark and myself trading the markets *live!*

Mark will share with you:

- Being in the Chicago and Mercantile Exchange pit as the Euro Dollar was traded... The pit was bigger than a basketball court...
- Witnessing on the CBOT floor the market makers make their plays in the DOW and in the S&P500...
- SYMEX in Singapore... Mark stood in the pit where Nick Leeson sunk Barings Bank – a billion dollar powerhouse stripped down to a value of \$1 by his actions... *He'll explain to you all the dynamics at play...*
- Visiting trading arcades in London where everything has been converted to electronic trading... Hundreds of desks each with 8 or more screens and *billions of dollars* changing hands hourly...

Just awesome stuff!

You get to see things that people don't even pick up on. It's just the feel of the market. You see how the markets are driven. What drives them up, what drives them down. You see first hand, see the herd instinct...

Only in this situation do you get a sense for what's *really going on!* You see where the market makers work their game. They stop people out of the market. That's the institutions. They really drive it down, to a certain level and then they pick it up, draw it back up.

You get a sixth sense that most people would never understand. Mark will impart this experience to you and show you *LIVE* the *precise subtle nuances* that **can make you rich**... or burn you if you don't get the deal!

How you benefit from my

\$10 million dollar / 15 year investment into the creation of the “Refined Elliott Wave Principle”

The obvious benefit to you is that we now have the technology that will allow you to forecast the markets using the **Elliott Wave Analyzer 4 software** and the training we provide in the **Elliottician Certification Course** to accurately predict market direction correctly *at least 85% of the time...*

But there is more...

During my 15 years of intensive research and development – as I painstakingly documented all my findings in the **Elliottician Certification Course...** I also developed what is now heralded as a world first...

Stephen Pierce, CEO of Impulsive Profits, Inc. and creator of **Fibonacci Secrets (TM)** states:

“**Rich Swannell** is the world’s foremost authority on Elliott Wave pattern recognition... and in my opinion he is one of the *modern pioneers* in Elliott Wave...”

“Rich has worked with other Elliott Wave experts absorbing all of the historical analysis – which I might point out, has always been done manually... And then he did what everyone said could not be done...”

“He took on the project to program the thousands of variables of Elliott Wave... and created a system that computer generates the *exact probability of success* in any trading situation.

“This allows you to execute *winning trades more easily and more often!* His work is truly *revolutionary*... Furthermore, the system has been *scientifically proven*...”

I quoted Steve Pierce for you only to make a point... *I have learned a hell of a lot about this business of stock trading...* and *I do have the most incredible knowledgebase of highly profitable information on my very shoulders!*

And at the “**Fast Track to Millions**” **Elliottician Traders Seminar** it will all be available to you to mine for profitable tips, tricks, strategies and trading tactics...

Elliott Wave Analyzer 4 Secrets Revealed...

Let me tell you a little about the development of the **Elliott Wave Analyzer 4 software**. This has been the most amazing journey of discovery – from which you will be able to *directly profit!*

At the **Elliottician Traders Seminar** we will use this amazing stock market forecasting software at the *highest level of expertise*... You'll see Mark and myself in action using **Elliott Wave Analyzer 4** to obtain the *exact odds* of which way the markets are likely to move...

But even more... I'll explain for you what's going on behind the scenes. During the development of the software, we had more than 3,000 computers around the world working day and night to analyze nearly every tradable market in the USA.

We eventually compiled and cataloged millions of patterns in these charts... with each being carefully tabulated and documented in the largest database of its type ever created.

Now the **Elliott Wave Analyzer 4** software package helps you identify patterns within price data. When it finds an incomplete pattern, it gives you *exact odds*, or an *exact probability*, of where the market is about to move.

It's our most profitable trading tool... and that of thousands of other traders...

And I will reveal to you *all the secrets* behind the power of **Elliott Wave Analyzer 4**... *how and why* it is so powerful... and *how to turn that power into bankable trading profits!*

We do it everyday...

Secrets of the "Refined Elliott Wave Principle"

I have also decided that at the **Elliottician Traders Seminar** I will come "out of the closet" on everything I have learned in developing the "Refined Elliott Wave Principle".

Mark Lindsay has been directly quoted as saying, "The ***MOST SIGNIFICANT ADVANCES*** he has *ever experienced* in his journey to becoming a dynamite trader with a killer record has been the "Refined Elliott Wave Principle".

What precisely is the **Refined Elliott Wave Principle**?

It is a major advance and discovery on the existing Elliott Wave theory... Through exhaustive research, I discovered that certain techniques, when applied consistently, produced far superior forecasting results - accurately forecasting market direction *over 85% of the time*.

This disciplined approach **removes emotion** from the decision making process. This is a **huge deal!** By using the scientific process of the **Elliottician** forecasting system, all human *emotions-based* intervention is removed.

I will reveal to you at the **Elliottician Traders Seminar** step-by-step every powerful and profitable trading concept discovered during my years of intensive research. You will get to hear it *direct from the horses' mouth...*

Mega-Profitable Bonuses

Bonus #1: The “Elliott Wave Market Scanner”

Only attendees at the **Elliottician Traders Seminar** will get to witness this treat:

Mark Lindsay has developed a tool called the **Elliott Wave Market Scanner**. It is his *proprietary scanning software tool* he has painstakingly built over many years... It identifies for him the absolute best trading setups...

Let me tell you how it works:

It scans the S&P500 daily, and picks out the hottest 4-6 trading setups... absolute setups that are ripe for the picking... both on their way up... and moving down.

The scanner works so unbelievably well... **it is picking for me smokin' set-up trades up to 6 times faster** than *probably anything you've witnessed before...*

Mark no longer looks at chart after chart looking for a possible trading set-up... This baby scans the complete S&P500 every morning... and looks at lots of different criteria. It scans for corrections.

As you know, that is where you make all your money - buying corrections...

The scanner takes into account about four or five different things: account losing averages, Bollinger bands, candle sticks, how long the market has been in an up-trend, whether it's making higher highs, higher lows. The scanner takes into account a lot of things.

Witness Mark's closely guarded *trading secret* in action...

The beauty about the scanner is when Mark runs it, it will show him stocks that are setting up for a good trade and then he puts them in one of two watch lists.

- It analyses the market and automatically picks out the best possible trading set-ups
- Avoids the need for him to search through thousands of charts to pick out these set-ups

- Analyzes every stock within the S&P 500
- Kicks out roughly about four to six stocks each time he runs the scan

It involves two different scans:

- One picks where he should go long in the market
- One picks where he should go short in the market

He puts these about-to-happen trading set-ups into the watch lists... and waits for the set up to really happen... then executes his killer trade ...

In no other forum is it possible for you to see the Elliott Wave Market Scanner in action... Furthermore, Mark will tell you in detail how it works and how you too can create your own *highly profitable* Market Scanner...

It's as simple and painless as that.

The Home Study Option ...

For those who can't attend in person for scheduling or financial reasons:

A Home Study Option With Liberal, Easy, "No Risk" Payment Terms...

Knowing that not everybody can attend the "**Fast Track to Millions**" **Elliottician Traders Seminar** in Los Angeles on October 27-29, 2004 – possibly for scheduling or travel reasons...

And also knowing that the attendees of the live program would benefit enormously by having a permanent record... a complete transcript of every *live trade* Mark and myself run... a complete video capture of every move we make in reviewing *set-up plays* and executing them on the markets...

We are making available a **Home Study Option** – with an extremely generous pricing option for *live attendees* so they can take home and continue to learn from this *explosive event*... and very liberal and easy payment terms for those who are unable to attend the event live in Los Angeles.

Specifically for you, we've created a home study version of the program that preserves the entire experience unedited and unabridged.

You'll receive the same valuable **tips, techniques, strategies** and **tactics** to implement in your own trading (just without the live experience or being able to grill Mark and myself with your questions)... You'll receive the **Elliottician Traders Seminar Workbook**, Mark Lindsay's "**Elliott Wave Trading Strategies**" **Report**, the **Elliottician Traders Seminar – Additional Materials**, your own **FREE** copy of the **Elliott Wave Analyzer 4 Software** (demo version), and also a One-Year Subscription to **Elliottician Market Watch**.

The price of the home study version is only \$1,500, if paid in full upon registration. (For **LIVE** attendees, your price is only \$750). If you'd prefer liberal terms, paying the bulk **AFTER** you profit, then the price is a modest \$200 upon registration, and then \$200 per month payments for 10 months thereafter, for a total of \$2,000.

(Live attendees have the option to pay only \$100 upon registration and \$100 per month payments for 10 months thereafter, for a total of \$1,000.)

And you have a full 30 days to evaluate the complete program and decide for yourself whether the materials will massively benefit you and your trading profits.

My recommendation is that if you can afford to be there in person, it's an incomparable experience. But if you can't, then you really owe it to yourself to experience the **“Fast Track to Millions” Elliottician Traders Seminar** via the home study version – Try it out under our **Totally “Better Than Risk FREE,”** 30 day trial option, test drive.

Below is just a brief sampling of them:

***** I have proven to myself with a list of verifiable witnesses that claims of 85% accuracy are achievable and a MODEST assessment of performance at that *****

"9 months and 20 days ago on August 4, 2003 I pleaded to be allowed to be among the first to sign up for the certification course. I believe the course has fulfilled its every promise.

"At one point in the course Rich asked that we not trade. I did that for the most part. I started writing a daily forecasting e-mail and sending it to my friends. This kept my paper trading honest and verifiable, while still feeling as though I really had something on the line. The results astounded me and my friends and associates. I asked people to forward me e-mail addresses of anyone who would be interested in receiving my forecast. My mailing list tripled in 3 months.

"...perhaps as close to the "Holy Grail" of trading as you can reasonably approach. I have proven to myself with a list of verifiable witnesses that claims of 85% accuracy are achievable and a MODEST assessment of performance at that."

Ran Edwards, TN, USA

***** For those of you in search of the "Holy Grail" look no further than yourself and Elliottician *****

"By far the most eye-popping information I have ever encountered. I have trained under Jake Bernstein, Ken Roberts, Stanley Kroll, and Larry Williams, all great traders in their own rights. But for those of you in search of the "Holy Grail" look no further than yourself and Elliottician's "Refined Elliott Wave Principle", "85% Forecasting Phenomenon" and the Elliott Wave Analyzer III. You will never get any closer than this."

Jerre Stinson, NJ, USA

***** I have paid for the course many times over before I finished it *****

"Most people are content with 3-5% return on their money (per year)... I get that and sometimes much more each week!!!!

"This course is worth many times more than the asking price... Even with the doubt at first I have been able to put the knowledge to practical use and have paid for the course many times over before I finished it..."

Terry Nicholls, Pocatello, Idaho, USA

***** No more "blind folded" trading... See with great accuracy... *****

"No more "blind folded" trading! You see the patterns and read the waves with great accuracy. Nobody can put a price tag to a very successful, profitable Trader! If you are serious to become a successful trader, there is no easier and more valuable way on this planet than to join the Elliottician Certification course." ⚡

Hans Hartner, Punter Gorda, Florida, USA

"Enroll now and you enter in a new world with no stress and with a trading method that effectively works..."

Matteo Peruzzo, Padova, Italy

"The Single Most Significant and future profitable thing I have learned is that markets definitely have repeatable and predictable trading patterns. That can be proven beyond just hypothetical.

"If you are serious and really serious about trading and tired of wasting money and time learning a bunch of crap that will not last when markets shift. You better enroll as if your life depended on it! Mine certainly does!

"Without trading I don't know what else I would do with myself. But desire without improper tools is like a brand new Ferrari in the drive way and no gas to put into it to drive it!

"DO IT!!! YOU WON'T BE DISAPPOINTED!!! ... Priceless."

Brian Thompson, Charlotte, North Carolina, USA

"It cannot be measured with any kind of dollar value. Do it now. Trading without Elliottician Certification is like living without breathing air. This means not living at all."✍

Piyush Patel, Rochester, New York, USA

"For someone who truly wants to invest the time in learning how to use a proven system like the Elliott Wave Analyzer, the Elliottician Certification course is for you.

"Rich Swannell has started this course at the very beginning and laid it out so you can complete it at your own speed. You can tell that there has been a lot of forethought put into the creation of this program ...

"Not only is it in every day language but, you can go back over the modules and pick up points that were not clear to begin with.

"When I purchased my Elliott Wave Analyzer in 2000 I could see it's potential but could not get what I wanted. After taking the course I am 100% satisfied.

Al Priest, Sikeston, Montana, USA

***** I have made many times the amount spent and am only half way through the course *****

"If I told you that it is possible to know where the price is going, would it be easier to trade? Don't let the money stop you. I have made many times the amount spent and am only half way through the course. Just imagine what I can do after completing the course."

"To be successful in this business you need the TOOLS. This course provides you with that. [Elliottician have a] money back guarantee and even a payment plan, how can you go wrong? ...90% of all Day Traders never last more than 2 years in the business. ... This Course is a must for anyone serious about trading."

Mickie P., Victor, New York, USA

"The most important and valuable things I have learnt are:

1. To forecast the markets correctly 85% of the time.
2. To make a workable strategy to enter and exit the markets.
3. To trade as a professional."

Sanjeev Bhatia

"Forget what the scientists say: It's not a random walk. There are patterns...whatever causes them. The patterns are sometimes quite predictable if you know what to look for. When they're not, stay out. When they are, take what life has to offer! If you can forecast the markets, other conventional businesses look...high risk!"

Philip Greenwood, London, United Kingdom

"The bottom line is, if you want to increase your own bottom line, reliably and consistently, by all means - take the course sooner, rather than later.

"Delaying or dithering over the decision to do so will only make you feel foolish later on, after you've begun to witness the power of the trading tools being offered here.

"The ability to trade with 85% accuracy or better is not only promised, it comes with a money back guarantee - you'll be tested to prove that you can achieve this level before you're allowed to graduate.

So go for it!"

Gregory Melick

"It is a major relief to trade without intense anxiety... There is no other program available that remotely approaches its value."

Jim Griswold, Mesa, Arizona, USA

"The most significant thing I learned so far was that stock prices can be predicted in a lot of cases, thanks to human behavior. The course might be one of the most important decisions of your life."

Cees INT VELD, Huizen, Netherlands

***** Based on a scientific system *****

"The Elliottician Certification course gives a real plus value, as it is based on a scientific system."

Ghunald Loyaerts, Tienen, Belgium

***** If you are serious about being a profitable trader you must enroll *****

"If you are serious about being a profitable trader and want to have the opportunity to expand, you must enroll."

Cheryl Ruede, California, USA

***** The monthly forecast for the S&P 500 - absolutely amazing!! *****

"I can say that my investment was absolutely worthwhile. Rich Swannell as instructor is an inspiration! Very good and easy-to-understand explanations and he really is extremely motivated; always a pleasure to learn from him."

"The monthly forecast for the S&P 500 - absolutely amazing!!

"Don't just think about it. You better do it!"

Uwe Paschke, Kelkhiem, Germany

***** Elliott Wave Analyzer 3 & Certification is the closest thing to a crystal ball *****

"It's almost certain suicide if you go it alone and unarmed into the markets. Elliott Wave Analyzer 3 is my Obi-Wan Kenobi. With Elliott Wave Analyzer 3 & Certification, you're not only less likely to get blindsided by market action, but you've finally got the closest thing to a crystal ball."

Sam Bleecker, New Jersey, USA
