World's Most Advanced Stock Market Forecasting System

Latest Breakthrough Results Have Proven to
Accurately Predict Market Direction
At Least 85% of the Time!

Dear Stock Market Trader,

If you're sick to death of being in the **95% of traders** that **LOSE MONEY** instead of **MAKING MONEY**... If creating some element of **independent wealth** seems to be an unattainable goal for you... If your starting capital, maybe your retirement funds have all but totally diminished... If you can't seem to get ahead and the stress of it all has you literally *dying* inside... If you want to **save face**, **save your marriage**, and literally **save your sanity!**...

THEN **PLEASE READ ON...**

Let me tell you the amazing story about **Rich Swannell**. Born with a goal to generate unlimited money so he could contribute to others, Rich soon realized this was never going to happen working a 9-5 job for someone else, or owning the local grocery store, or even pulling the odd win in the markets. He realized he had to generate **massively significant** sums of money...

This guy had big dreams... dreams of personally funding projects in Third World countries to give children a chance at life!

This is how his story started...

...and how **YOU will profit** from it!

In the early 80's he figured the best way to generate *massive funds* was by investing in the stock market. By the late 80's he had discovered and immersed himself in the **Elliott Wave Principle** - originally pioneered by Ralph Nelson Elliott in the 1930's. And by the early 90's, Rich was devoting every waking hour and every dollar earned (over \$10 million) to refining and improving Elliott Wave pattern recognition.

He Has Succeeded...
with proven results of being able to **accurately predict market direction at least 85% of the time!**

What does this mean to you?

Money

...and lots of it!

Actually, let me jump quickly to the end of the story: After 15 years of intensive research and development, Rich Swannell has developed the **Elliottician Certificate Course** that shows you step-by-step how you can achieve his documented results of **accurately prediction marketing direction at least 85% of the time.**

And more... he has created the world's most advanced market forecasting system - **Elliott Wave Analyzer 3** - which gives you **exact odds** of which way the markets are likely to move.

Can you imagine that?

Have you ever suspected there may be *patterns* in the price data of stocks? Well there certainly are! And these patterns can help you **accurately forecast which way the market is most likely to move.**

The **Elliott Wave Analyzer 3** software package helps you identify patterns within price data. When it finds an incomplete pattern, it gives you *exact odds*, or an *exact probability*, of where the market is about to move.

It's like a weather forecast for the markets!

Can you imagine how easy it would be to trade profitably, very profitably, in nearly any market with a tool like this?

You Can Now Profit Handsomely from Rich's efforts...

Would you like to be "in-the-know" and have Rich reveal to you the "secrets" he has discovered in his intensive research? Would you like to know the precise probability that the market is going to move in a certain direction with an **accuracy of 85% or greater?**

What do you think that would do for your trading efforts?

Well, if you ACT NOW... you will not only save thousands of dollars... **you can actually get all of Rich's secrets for FREE!**

I'll tell you how that works shortly... but first - let me reveal to you some of the secrets awaiting you!

**The secrets to forecasting markets
with awesome precision!**

...are all revealed in the Elliottician Certification Course

The **Elliottician Certification Course** will teach you a whole new technology of pattern recognition that Rich has developed over the last 15 years. This ability to forecast how players in the market will act and react will give you the *power to forecast markets* with **awesome precision**. Not every market... obviously. There is a simple test to determine which markets you can forecast and which ones don't conform.

The **S & P 100 stocks... S & P 500 stocks...** A lot of the **NASDAQ stocks**. High volume or very liquid **commodities, currencies, even bonds**. They can all be forecast *with uncanny accuracy!*

The **Elliottician Certification Course** will teach you how he forecasts these markets. In fact, the guarantee states that by the end of the program, when you take the final test, **you will be able to forecast market direction accurately at least 85% of the time... or Elliottician will give you your money back!** The team at Elliottician expect you will get a lot better rate than that... but that's an absolute guarantee minimum. So there is no risk what-so-ever.

It has taken Rich **15 years**, and **over \$10 million dollars** of his own money to develop these forecasting systems. It's based upon *pattern recognition*. And while others have written about the Elliott Wave theory, none ever has developed a trading system with **proven results** to be on the money at least 85% of the time. Rich is the only person in the world to have done this. You can't get it anywhere else. And for a limited time only Elliottician is making it available to a number of traders..

Why are Elliottician making their system available for a limited time?

Ultimately, Rich can achieve better returns and fulfill his goals of housing, feeding and educating 1,000's of Third World children by creating a forecasting service. One that will provide the answers (on market direction) to a much larger group of people. In fact, *this is exactly* what he is in the process of doing. But in the short term he wishes to **train up a core group ...** and out of that core group employ a number of those people to do the forecasting for the **Elliottician Forecasting Service**.

Of course, not everybody will be interested in joining the forecasting service. **However, anybody at this stage can take the Elliottician Certification Course, and use it for their personal profit...**

For nearly a year now, Rich and his team at Elliottician have been creating an "inner circle" of traders privy to his powerful trading secrets. "Inner circle" members get to interact with each other, as part of a discussion group, and bounce ideas like a mastermind group to improve their individual trading skills and methods.

But in the long term... Rich will not be teaching his system and methods to the general public.

There are over 3,000 traders using the **Elliott Wave Analyzer 3** software, and now over 400 students in the **Elliottician Certificate Course** who will soon also be eligible to join the "inner circle" - a forum for qualified Elliotticians.

A lot of people ask us... Can I make a lot of money out of this?

And the answer is, well yes!

Elliottician guarantee that by the end of the **Elliottician Certification Course**, **you will be able to forecast the correct direction of markets accurately at least 85% of the time...**

...a reasonable trading system doesn't have to be right even half the time to make money. Here the **Elliottician Certification Course** can help you learn how we forecast markets correctly nearly every time.

In fact, in 2003, **Elliottician** published 200 forecasts, all in their publicly available monthly newsletters, and have got the direction right in all but three of them. **That's a 98.5% accuracy rate!**

With his 400 plus promising Elliotticians, Rich Swannell has requested they don't trade real money until they have graduated. But most of his students have been paper-trading. ...and they are getting excellent results. They are quickly getting to the point where they can start to duplicate **Elliottician's** own results.

Does this all sound a little unbelievable to you?

Let me bring it back down to earth... Let me explain how it works, the kind of markets **Elliottician** can forecast, and the kind that they cannot.

It's based upon a certain type of **pattern recognition**. The **Elliottician** system looks for markets that have shown appropriate historical behavior. So they run a number of tests on charts over the past 10 - 15 years to determine whether historically they have shown particular patterns *consistently*. If the market qualifies, then they can **forecast into the future with confidence**.

These are markets that are subsets of markets that have a lot of traders so you get **crowd psychology** with herd instinct happening. Typically they are *very liquid* markets. Stock markets like the **S & P 100**, **S & P 500 stocks**. A lot of the **NASDAQ stocks**. And high volume or very liquid **commodities** also fall into this category. They have an excellent success with **currencies** and in **bonds** also... **any market really where there are a lot of traders trading**.

These are just the U.S. markets. Any liquid commodities or stocks in other markets also qualify as long as they pass the **Elliottician** tests. There are many stocks on the Australian markets. On the U.K. exchanges, in London. They are also testing many other markets...

However...

Let's say out of the **S&P100** about one-third of those stocks would qualify. So that gives you 30 out of 100 stocks where **they can predict with uncanny accuracy**.

Let's Review What We Have Here...

Why The Elliottician Certification Course Is Turning The Trading World On It's Head!

Blow-by-Blow Description of the Elliottician Certification Course

This course is extremely extensive... here is a summary of what you will get:

Module 1 - Starting With The End In Mind: A six-part video series showing you how Rich Swannell forecasts markets with uncanny precision using the **Elliott Wave Analyzer** software. **You see *the end result*, what our Certified Elliotticians are doing to achieve greater than 85% accuracy on forecasting market direction.**

Module 2 - The Ultimate Vision: How and why Rich developed the course... The potential the system provides you to take your life to another level, and how you can ultimately benefit beyond anything you have ever thought of. **WHY it is vitally important to be successful** and encourage you to think about what you will do with the fruits of your success. You will profit from Rich's own amazing story including his goal of helping 1,000 people become millionaire traders.

Module 3 - Overview of the Research: Renowned Elliottician trader and entrepreneur, Stephen Pierce interviews Rich Swannell: Topics covered include: **Elliott Waves**, the **Refined Elliott Wave Principle** and how the **application of this amazing research** is very important for the future. **Why Elliotticians in the past have clashed** over their analysis... and **how the Refined Elliott Wave Principle dispels many of the myths** about Elliott Waves. More importantly, there is a **detailed discourse on how Elliott Wave truths have been indisputably proven by new research which is built into the Elliottician forecasting system.**

Module 4 - How to Use the Refined Elliott Wave Principle in Your Trading: Ever since Ralph Elliott observed and defined the various Elliott Wave patterns back in the 1940's, Elliotticians have known that the consequences of emotions as they play out in the market are far from random. Module 4 introduces the scientific method of determining every facet of the Elliott Wave Principle. Many people are aware of how Fibonacci ratios apply to wave structures, but not the **precise probability of markets turning** at the various Fibonacci levels.....until now! No more opinions. No more conjectures. No more arguments. **Just facts based on verifiable statistics and data.**

Module 5 - Moving with the Trend: Understanding Impulsive Elliott Wave Patterns: This module introduces you to the most well known group of Elliott Wave patterns, the Impulsives. **Early recognition of an impulsive pattern means massive profits.** You will be buying when the professionals buy, not when the moms and dads are buying at the end of the trend.

Module 6 - Moving Sharply Against The Trend: Understanding Sharp Elliott Wave Corrective patterns. There are various types of corrective patterns that are categorized by the Refined Elliott Wave Principle. How is this useful to you? Well you can trade these patterns for profit just like an impulsive pattern. But recognizing when these patterns conclude can put you in a position to trade the next wave of an impulsive pattern from a **low risk, high probability entry point.** And that is where the greatest profits lie.

Module 7 - Meandering Against the Trend: Understanding Sideways Elliott Wave Corrective patterns. Module 7 details the next family of corrective patterns, known as Flats. Contrasting with the Zig-Zags, which move sharply against the trend, Flats move more sideways. As with all Elliott Wave patterns, **profit is achievable by identifying the first wave or two and forecasting the time and price move of the following wave.**

Module 8 - Moving in Triangles: Understanding Elliott Wave Triangle formations. This is the last family of corrective patterns. Triangles are often labeled by non Elliott Wave technicians as a triangle or a pennant. But there is a difference! Learn how to analyze these patterns in the context of the overall *Refined Elliott Wave Principle* and how to calculate the **exact probabilities** of the next wave in terms of price and time. That's a **huge advantage** over standard technical analysis that will show up on the bottom line of your trading statement as profit that you never thought possible.

Module 9 - Memorizing Elliott Wave Rules: How to easily memorize the fundamental rules of each common Elliott Wave pattern. Memorizing the most important rules and the most common shapes of the seven most frequent Elliott Wave patterns will make you a **lot of money** in the financial markets of the world. In module 9, you start to cement in your subconscious all the rules you need to know to **profit massively!**

Module 10 - Identifying Elliott Wave Patterns in real markets: How to quickly identify real life Elliott Wave patterns when scanning charts. In total, there are 11 Elliott Wave patterns. But of those 11 patterns, only 7 appear frequently enough in the world's markets to form a trading plan around. Do you know which 7 patterns these are? Another surprise revealed by the research is that the shape of some of the patterns is different than previously thought. Module 10 is the next step in training your mind to see the patterns instinctively.

Module 11 - Identifying Patterns Quickly: Now is the time to have some fun while you learn to recognize the patterns quickly, confidently and without thinking. The *Elliottician Speed Test* will assist you to instantly recognize the various Elliott Wave patterns, which is imperative to your success. The *Elliottician Speed Test* transfers this knowledge from your left brain to your right brain - so that you can *easily* and *instantaneously* see Elliott Waves immediately when examining at a chart at anytime in the future.

Module 12 - Loose Ends: Detailing the few remaining items to round your knowledge and skills to the level you will need to become proficient in picking high profit trades instantly. Did you know that that Elliott Wave patterns appear in **all time frames**, from **intraday charts**, right through to patterns that may **last for several decades**, or more? These, along with a few other related topics are covered in module 12.

Module 13 - The Psychology Behind the Waves: An interview that will give you unique insight into what is happening in the minds of the traders as the market moves through the various Elliott Wave patterns. Listen to an amazing interview between Anthony Robbins and Robert Prechter.

Have you ever wondered why repeatable patterns appear everywhere in the worlds financial markets?

Robert Prechter is perhaps the best-known exponent of Elliott Wave Principle as well as a qualified psychologist. In this interview he discusses topics such as: **mass psychology**, **social trends**, the **Fibonacci sequence** and **fractal patterns**. Robert reveals *why* these patterns form and *who is buying and selling* in the various waves. You will begin to see the logic behind the wave structure of markets.

Module 14 - Examining the Evidence: A detailed look at how we have achieved our excellent forecasting results in the past, and how to apply the same principles to your trading. **Here is the proof behind the greater than 85% accuracy claim Elliottician** make with confidence. Participants of the **Elliottician Certification Course** not only get to see the proof in module 14, but also how the forecasts were formulated.

Module 15 - Putting it All Together for Profit: Accessing, Examining and Thoroughly Understanding the Research Results. Use never before published research, which has resulted in the world's largest, *most comprehensive collection* of Elliott Wave patterns ever compiled. With access to the entire database of research results, learn how it was carried out, and **how to calculate the exact probabilities of market movements.** The **Elliott Wave Analyzer 3** software actually calculates all this for you, but it is important to know what the software is doing behind the scenes so you can better understand how to implement the forecasts into your trading.

Module 16 - Identifying Patterns Quickly: Using **Elliottician's** proprietary *Speed Test* software at the next level of difficulty. This will *deeply* install the patterns in your right brain - for instantaneous recall without effort or thought... **leading to instant recognition of opportunities and greater profits!** You now start seeing Elliott Wave patterns everywhere!

With direct access to the Elliott Research Database, simply plug in the details of your incomplete Elliott Wave pattern, and it will immediately tell you the probability of the pattern changing direction. **This is a simple yet immensely powerful trading tool.** **What would it mean to your trading to know the exact probability of how far a trade will go before reversing?** Or how about knowing the highest probability Fibonacci retracement level when looking to enter a trade?

Module 19 - Summary: Go through a closed eye process to help install all you have learnt into your subconscious mind.

Module 20 - Introduction to the Elliott Wave Analyzer software: This five part video series gives you everything you need to know to get the very best results from this comprehensive software forecasting package.

What Does Warren Buffet Think of the Elliottician Certification Course?

What's going on with the Warren Buffets of the world?

How do they fit into the picture here?

Let me explain... the Warren Buffets of the world have a completely different trading philosophy. They trade on fundamentals. What makes sense from an asset point-of-view... What is happening in the wider-world... What is happening within a company from a management point-of-view...

That's one approach... and it works very well when you have sufficient and detailed information on every company you intend to buy into... and all the factors affecting the future of that company...

With Elliott Wave, you look at the patterns in prices alone.

Here's the deal though...

Ultimately all the management, and all the factors that have happened out there in the marketplace... have already factored themselves into the price pattern. Even insider information has already factored itself into the price.

So you see price patterns coming up consistently in certain stocks. And you look at incomplete common patterns. When you find the beginning of a pattern... one that's obviously incomplete, then you can work out the *percentage probability* of the market moving in a given direction. **It's like a crystal ball!**

You may say, over the next month XYZ stock is on it's way up. You expect it to get to 75+, maybe up to 95 or beyond. But at least to 75. And once it's got to that point it's going to drop over the next year. And you expect it to come down to maybe 35. It's giving a general market direction and target areas.

And they are rarely incorrect... if the forecast is done correctly and the resulting probabilities are shown to be exceptionally high.

It's An Insurance Policy Against Financially Devastating Trading Mistakes!!

Take the fear and pain out of investing!

Uncertainty... is very painful when it comes to your finances.

Stress... wears down your psyche and your health... and wreaks havoc with your relationships. And where does stress come from?

Fear!

Stress comes from fear of the unknown. ...and having no safety net. No insurance against devastating errors!

You get Mr. Joe Average who keeps an eye on his portfolio. He doesn't trade everyday. He has some Microsoft shares, and a few other bits and pieces. He just wants an insurance policy... that says he's got the right shares.

Having the crystal-ball like knowledge that the **Elliottician Certification Course** will give you, is like having a the guiding hand that gives a *high probability* that you are on the right track... Moving in the right direction...

...and thus allow you to **sleep better at night!**

How does the software work?

For the past two years, more than 3,000 computers around the world have worked away day and night running the **Elliottician** screen saver, analyzing nearly every tradable market in the USA. This bank of computers has identified millions of patterns in these charts, and each has been carefully tabulated and documented in the largest database of its type ever compiled.

When the **Elliott Wave Analyzer 3** examines a chart, it looks for common patterns - common for that type of market over that time frame. It has *direct access* to this unique database and compares the patterns it finds with the patterns in the database. **It does not use some unproven theory - only practical and comprehensive statistics gathered from real charts of real markets.**

The **Elliott Wave Analyzer 3** can forecast the market by identifying *high probability incomplete patterns*, and calculating where and when the pattern is most likely to finish.

Because of the size of the database and extensive statistical research, this software can give you *exact odds*, or an *exact probability*, of each forecast being correct - **the only market forecasting system in the world able to do so.**

This is the **secret weapon** the most successful stock and commodity traders do not want you to know about.

P.S. The feedback we have received from the current 400 plus "Elliottician Certification" clients has been tremendously favorable...

Here is a sampling of what they have to say:

COURSE PRESENTATION IS BRILLIANT. NUFF SAID.

THE HOLY GRAIL OF TRADING

"You have found the Holy Grail of trading. Don't let it pass by."

Jules Cayer, Connecticut, USA

EWA3 & CERTIFICATION IS THE CLOSEST THING TO A CRYSTAL BALL

"It's almost certain suicide if you go it alone and unarmed into the markets. EWA3 is my Obi-Wan Kenobi. With EWA3 & Certification, you're not only less likely to get blindsided by market action, but you've finally got the closest thing to a crystal ball."

Sam Bleecker, New Jersey, USA

THE MONTHLY FORECAST FOR THE S&P 500 - ABSOLUTELY AMAZING!!

"I can say that my investment was absolutely worthwhile. Rich Swannell as instructor is an inspiration! Very good and easy-to-understand explanations and he really is extremely motivated; always a pleasure to learn from him.

The monthly forecast for the S&P 500 - absolutely amazing!!

Don't just think about it. You better do it!"

Uwe Paschke, Kelkhiem, Germany

FORGET EVERYTHING ELSE OUT THERE, NOTHING COMPARES WITH THIS TECHNOLOGY!

Don De Rota, Sydney, NSW, Australia

IT WAS SO CLEAR!!

"Markets operate with significantly more structure than I ever believed, and having read many Elliott manuals before, I was concerned as to whether I would actually, gain any more clarity from this course...man it was so clear!!"

Bryn Griffiths, Wellington, New Zealand

WORTH INTO TENS OF THOUSANDS OF US\$

"The dollar value of the information, if applied in real time trading, will by FAR exceed the price of this course. From my (humble) perspective, meaning my investment money isn't that large, I think it would worth into tens of thousands of US\$"

K K Sips, Breda, The Netherlands

REALLY WORTH THE MONEY!

"Go ahead, don't wait for nothing!

No doubt, it is really worth the money."

Ruediger Born, Siegen, Germany

Darwin Harris, Renton, Washington, USA

A VERY CLEAR PREMISE

"I think the premise is the clearest one I have come across in my 7 years of research, I think wave theory is applicable, and I think you have come across a great way to use it with your data base and research."

Bruce Bell, New York, New York, USA

IT HAS TAUGHT ME TO INTERNALIZE THE WAY I SEE PATTERNS

"There is much in this course, but the way it has taught me to internalize the way I see patterns, and to understand how forecasts prepared under different time frames can enhance reliability are particularly important. It is well worth the investment."

Gregg Richter, Barre, Massachusetts, USA

WHERE BEFORE THERE WAS DARKNESS, NOW THERE IS LIGHT

"I have learnt that it is ALL possible. Plain and simple. The capabilities of my trading are now boundless. Where before there was darkness, now there is light. It is possible to change your life, the lives of those around you and the lives of those you don't even know through the proper application of this technology."

Trevor Cowie, Winnipeg, Manitoba, Canada

I WOULD STRONGLY AND UNHESITATINGLY ENCOURAGE ANYONE.

"Understanding that the validity of different counts was a matter of probability gave me the ability to commit to choices. In the past, I was paralyzed by a lack of criteria with which to choose, even tentatively, between different counts. I would strongly and unhesitatingly encourage anyone who wants to, and will, commit the time and attention necessary to succeed at what ever scale of trading they wish to undertake, to enroll in this program."

Bob Tajima, Junction City, California, USA

P.P.S. We show our Certified Elliottician members how we forecast markets *with awesome precision!*
And we guarantee it!

At the end of the course when you take our certification test, if you do not achieve an **85% accuracy rate at correctly forecasting the direction of the markets... we'll give you your full money back.** We will get you to a lot better rate than that... but **that's an absolute guaranteed minimum.** So there is no risk what-so-ever.

To enroll TODAY, go to:

https://www.elliottwaveresearch.com/secure_f_1er5.asp

P.P.P.S. Just to reiterate... Many people ask us... can I make a lot of money out of this?

And the answer is, well **yes!** If you are an informed smart trader... **you will learn how we forecast the correct direction of markets at least 85% of the time...** A reasonable trading system doesn't have to be right even half the time to make money. Here you will learn how we forecast markets correctly nearly every time...

In fact, during 2003, **Elliottician** published 200 forecasts, all in their publicly available monthly newsletters (at our web site - <http://www.elliottician.com/newsletter>), and they've got the direction right in all but three of them. **That's a 98.5% rate of accuracy!**
